Re: Arizona Water Company Application to Extend CC&N,  
Docket No. W-01445A-06-0199

Dear Commissioners:

As owners and partners of 580 acres of land known as Solana South and located southeast of the corner of Anderson and Barnes Roads, we respectfully request that you reject Arizona Water Company's action of filing for a 108 section extension (more than 69,000 acres) of their CC&N. Arizona Water Company's application includes only five actual requests for service addressed to them, covering only 197 acres. Arizona Water Company is seeking authority to provide water service to the properties who owners have already asked Global to serve them. Arizona Water Company is usurping our Request for Service to Global Water and is deceptively attaching it to their Application.

Our partnerships have invested heavily in this Pinal County area. We purposely chose Global as our utility provider because they are financially capable, they have a proven track record (with us and others) of delivering on time, and they are on the cutting edge of being environmentally sensitive to water reclamation/reuse issues.

The level of growth in this area of Pinal County requires that water and wastewater be integrated into a seamless resource. Only Global has the ability in Pinal County, by using reclaimed water to offset potable water use, to allow this area to fully develop. Having Global as our utility provider is critical to the success of our projects and others in this area.

We respectfully request that you reject Arizona Water Company's application.

Sincerely,

ANDERSON & BARNES 580, LLP  
An Arizona limited liability partnership
